Water Leak Announcement

LAWN CLIPPINGS AND BRUSH PICK-UP

Brush no longer than 4x8 in manageable piles. or small sticks can be put in brown leaf disposable bags or boxes.

Lawn rakings, please place in brown leaf disposable bags or clear plastic bags.

The village would prefer the disposable brown bags.

Do not put in road, place on edge of your lawn. Due to the changing weather, leaf pick up will stop 4 days after leaves have fallen.

Absolutely no pick ups

- * Items that are not placed in clear bags
- * Items that include any trash or garbage
- * Containers or bags that are over 35 lbs
- * WE MUST EMPHASIZE: please abide by the above rules or the bags will be tagged and left.

ATTENTION

DO NOT PARK BETWEEN SIDEWALK AND ROAD - YOU WILL BE TICKETED

FROM THE CODE ENFORCEMENT OFFICE

Property maintenance has been an issue this summer. Mowing regularly is necessary to avoid a violation. This includes your lawn in the space between sidewalk and the road. That space does not belong to the Village, it is only an easement if there is a need to work in that area and maintenance is required by the property owner.

DO YOU NEED A BUILDING PERMIT?

If remodeling, additions, fences, signs, new structures, pools, etc., a permit is required. Call the Village Office at 289-6104 or Steve Dehond, Code Enforcement Officer at 289-3010 x107.

CONGRATULATIONS RED JACKET CENTRAL 2020 GRADUATES!

- Toilets can account for almost 30% of all indoor water use, more than any other fixture or appliance.
- Older toilets (installed prior to 1994) use 3.5 to 7 gallons of water per flush and as much as 20 gallons per person per day.
- Replacing an old toilet with a new model can save the typical household 7,900 to 21,700 gallons of water per year, cutting both your water and wastewater bills.

An average of 20% of all toilets leak!!

Check for Leaky Faucets - The next place to check for leaks is your sink and bathtub faucets. Replacing the rubber O-ring or washer inside the valve can usually repair dripping faucets.

The following table at the bottom of this page shows the amount of water that can be lost (and billed to your account) for various size leaks.

Leak Size	Gallons Per Day	Gallons Per Month	Cubic Feet per Quarter
A dripping leak consumes:	15 gallons	450 gallons	180 Cubic Feet
A 1/32 in. leak consumes:	264 gallons	7,920 gallons	3,168 Cubic feet
A 1/16 in. leak consumes:	943 gallons	28,300 gallons	11,319 Cubic Feet
A 1/8 in. leak consumes:	3,806 gallons	114,200 gallons	45,681 Cubic Feet
A 1/4 in. leak consumes:	15,226 gallons	456,800 gallons	182,721 Cubic feet
A 1/2 in. leak consumes:	60,900 gallons	1,827,000 gallons	730,800 Cubic Feet

How Much Water Do I Use?

How many customers ask the question "how much water does the average person use each day?". The answer to this question. The answer to this question requires a definition of the average person". In general, per capita water use ranges from about 40 to 80 gallons per day (gpd). The following chart shows estimates of personal water use:

USE	Average / Person (gpd)
Bathing	15 - 25
Sink	3 - 5
Toilet	5 - 15
Washing Clothes	10 - 20
Washing Dishes	5 - 10
Cooking	1 - 2
Miscellaneous	1 - 3
Total	40 - 80

TWIN CITIES FOOD CENTER

Open-second Saturday of the month 10am to 12
