MINUTES OF MANCHESTER/SHORTSVILLE JOINT SEWERAGE SYSTEM MEETING AT
MANCHESTER VILLAGE HALL ON AUGUST 18, 2026

Present:	Mike Buttaccio	Commissioner/Mayor, Village of Manchester
	Ernest Corino	Deputy Commissioner/Mayor, Village of Shortsville
	Charlie Fine	Trustee, Village of Manchester
	Bill Henry	Trustee, Village of Manchester
	Matt Schaertl	Trustee, Village of Shortsville
	Ron Langdon	Trustee, Village of Shortsville
	Rita Gurewitch	Treasurer/Clerk-Treasurer, Village of Manchester
	Gordon Eddington	Eddington Environmental, LLC
Recording Clerk:	Amy Alexander	Clerk/Clerk-Treasurer, Village of Shortsville

The meeting was called to order by Commissioner Buttaccio at 4:34 P.M.

The minutes of the February 17, 2026 meeting were prepared beforehand by the Recording Clerk and on motion of Deputy Commissioner Corino, seconded by Trustee Langdon, voted and carried unanimously to accept as prepared and placed on file.

Treasurer Gurewitch presented the May 2026, June 2026, July 2026, and August 2026 Operation and Maintenance Treasurer's Report. A motion was made by Trustee Fine, seconded by Trustee Henry, voted upon and unanimously carried to place on file the December 2025 Operation and Maintenance Treasurer's Report as prepared. A motion was made by Trustee Henry, seconded by Deputy Commissioner Corino, voted upon and unanimously carried to place on file the May, June, July and August 2026 Operation and Maintenance Treasurer's Report as prepared.

The following bills were presented to the commission for their audit and were approved for payment on a motion made by Trustee Henry, seconded by Deputy Commissioner Corino, voted and unanimously carried:

Operation and Maintenance Abstract #10 $21,932.64 (voucher #5194-5211, check #5177-5192)
Operation and Maintenance Abstract #11 $21,978.32 (voucher #5212-5229, check #5193-5208)
Operation and Maintenance Abstract #12 $39,173.42 (voucher #5230-5255, check #5209-5229)
Operation and Maintenance Abstract #1 $18,263.82 (voucher #5256-5265, check #5230-5238)
Operation and Maintenance Abstract #2 $15,562.84 (voucher #5282-5301, check #5253-5269)

Commissioner Buttaccio made a motion to hold Joint Sewer meetings every month, starting in October, seconded by Trustee Fine, voted upon and unanimously carried.

Gordon Eddington's April 2026 Report:

1. High flows have continued at the plant. Pumps at Friendly Village have been running for 24 straight hours many times these last couple weeks.
2. Maintenance on equipment.
3. Running belt press- composting sludge.
4. Maintenance on front end loader.
5. Working with Penn Power (low bidder on generator replacement project) finalized contract documents; awaiting shop drawings of new unit.
6. Manchester & Shortsville flow meters are collecting data; Gordon will be working with Rita and Amy to use the collected date in the future.
7. Looking into the New York State DEC's new cyber security requirements for water and wastewater treatment facilities.
8. Plant is operating fine.

Gordon Eddington's June 2026 Report

1 High flows have stopped and plant flows are back to normal for this time of year.
2 Maintenance on equipment.
3 Received new standby generator shop drawings form Penn Power. Drawings have been approved by Elliott Engineering and generator has been ordered. Estimate 36-40 weeks for production. Working with Sloth Electric to install new generator pad and electrical connections for new unit.
4 Running belt press – composting sludge
5 Manchester & Shortsville flow meters are working fine, data collected was used for first quarter billing.
6 Installed solar panels and batteries in Manchester and Manchester Trail flow meter locations.
7 NYSDEC and USEPA have come up with new requirements for PFAS (per-and polyfluoroalkyl) (forever chemicals). They are large, diverse group synthetic man-made chemicals characterized by a chain of linked carbon and fluorine atoms. Because the carbon-fluorine bond is one of the strongest in nature, these chemicals are highly stable and resistant to heat, oil, stains, grease and water. They are linked to an increased risk of cancer. Some common PFAS containing items: cookware and

kitchen items, clothing and textiles, cosmetics and personal care items, food packaging, household and automotive items.

8 We will be testing our influent and effluent with sample kits and analytical costs paid by the NYSDEC. Our sludge and compost required testing will be paid for by MSJS.

9 Still looking into the NYSDEC's new cyber security requirements for water and wastewater treatment facilities.

10 Plant is operating fine.

The next regular Joint Sewer meeting will take place on October 20, 2026 at 4:30 P.M, at the Manchester Village Hall. Trustee Henry made a motion, seconded by Deputy Commissioner Corino to adjourn the meeting at 5:29 P.M.

Respectfully submitted,
Amy Alexander
